COCOM Document 4119

August 26, 1960

MEMORANDUM FROM THE UNITED STATES DELEGATION
CONCERNING
PROPOSED UNITED KINGDOM EXPORT OF MUSEUM EXHIBITS TO POLAND

REFERENCES: COCOM Documents 4071 and 4107.

1. The United States authorities have carefully studied the United Kingdom proposal (COCOM Document 4071) and do not object to the proposed export which they consider to be of obsolete arms which, when exported for museum display, are not considered to be within the scope of Munitions List Item I.

2. The United States authorities are unable to agree that further similar exports may be authorized without prior Committee consultation. The United States authorities request prior consultation and individual Committee review of arms export proposals except for small shipments of obsolete arms of less than 6.5 mm calibre exported for such purposes as museum display which fall under the terms of Memorandum of Understanding II.
